THREE GENERATIONS OF BOYDS

69 Years of Continuous Service to Our Customers, 1887-1956

J. H. H. BOYD
Grandfather of Boyd Bros.

It is with great pleasure that we herewith present our catalog for season 1956. First of all, we want to extend greetings and best wishes for a prosperous year in 1957 and to thank each and every one of our customers for their patronage during the past and hope that we may have the pleasure of receiving your valued orders for the coming year.

Those who have known and bought from the "Boyd's" in the past, many for a long term of years, of course, need no introduction. To those unacquainted with us we are glad to give the following bit of information.

Back in the year 1887, J. H. H. Boyd, the founder of our business, father of F. C. Boyd and grandfather of the Boyd Brothers started gathering and selling tree seeds and soon after began gathering native trees and shrubs and growing them in the nursery. There were few schools at that time in the Cumberland mountains, and little opportunity to attend, so his education was the result of his own efforts. His intimate and life-long association with trees and plants, together with his interest and accurate and correct knowledge, made him a leader in the growing of nursery stock. He died in 1924.

F. C. Boyd, the father of Boyd Brothers, followed in the footsteps of J. H. H. Boyd, advising and training his sons for the years ahead.

In 1930 he purchased a farm just outside the city limits of McMinnville, where Boyd Nursery Company operated until 1948—due to the expansion of McMinnville it was decided to move the nursery five miles farther out, on Highway 55-A, and the old farm is being sub-divided into building lots. A larger farm of new land was purchased where the expansion program could go forward.

BOYD BROTHERS

In 1948 F. C. Boyd decided to turn the active operation over to his sons, who are trying their best to carry on the work that their father and grandfather has developed.

The excellent growing conditions and our increased acreage enable us to offer this season the finest and most complete assortment of nursery stock we have ever had.

We have many customers over the country that have been sending us their orders from year to year, and we are proud of them, and trust we may add you to our growing list of pleased customers. Of course, our reputation depends on the class of plants we send out, and the service that we render.

All packing and shipping of orders is personally looked after by competent help; shipments are put up in the best possible manner, and stock is packed for long distance shipments.

SHIPPING SEASON—We usually begin digging and shipping nursery stock October 10th and with slight interruptions during the bad weather we ship all winter up until May 1st.

To our old, new and prospective customers, the Boyd Nursery Company wishes you a very satisfactory and profitable nursery season.

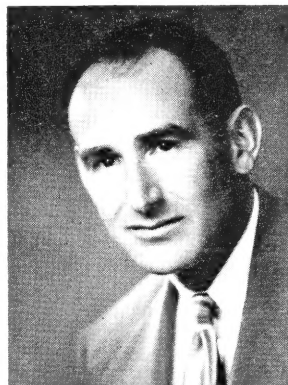

Cordially yours,

FOR YOUR DOGWOOD TREES

1. All of our dogwoods are first-class nursery-grown plants.
2. All dogwoods are being grown in new ground soil to insure against diseases.
3. Plenty of water was furnished to the plants this past summer by our irrigation system, giving the dogwoods better root systems.

BOYD'S WHITE FLOWERING DOGWOODS ARE REALLY NICE—SEE PHOTO ABOVE MADE SEPT. 1, 1956

CORNUS FLORIDA, White Flowering Dogwood

One of the most popular of all our native trees. Its beauty in the spring with its snowy clouds of white blossoms is unsurpassed, and the red berries and crimson leaves of fall are one of autumn's chiefest charms. (One of the nicest block of white dogwoods we have ever grown.)
